Some of the technical advantages of purchasing your UHP unit from Hydro-Engineering Inc. are: we offer the best warranties, the fastest deliveries, and the best after-sales support in the industry.

Warranty

Completed Bare-shaft Pump: 3-years, or 3,000 hours, less wear items. That is 300% longer than any available warranty in the industry.

Wear items: 500-hour guarantee on all wear items in our fluid end. That includes, but is not limited to, the packing, plungers, valves, support rings, etc. There is no other water-jetting manufacturer that will extend this warranty to you in writing. In fact, no other manufacturer will guarantee any wear items at all in their fluid ends. You can expect between 5 and 250 hours of life on these same wear parts with any other manufacturer. What does this mean to you? You can expect our operating cost to be at least 50% less than that of any other manufacturer, at 40,000 PSI.

Engine: 2-years or 2,000 hours.

Fastest Delivery

Pumps: Stock to 3-weeks.

Units: 2-6 weeks.

Accessories and spares: 1-year spare parts kit guaranteed at HEI-Houston, and 250 spare part-stock-inning offices around the world, for additional support.

Service and Support

Before the sale: Enjoy the use of a similar unit prior to making your final decision to purchase. In other words, take our unit and use it for a full two weeks. If you decide to

make a purchase, there will be no charge. If you decide not to make a purchase of a new machine, you simply pay for the freight and wear items... No questions asked!

During the sale: In the unlikely event that HEI is unable to deliver your new unit when promised, you will enjoy the free use of one of our demonstration units until such time as your new unit arrives...Guaranteed!

After the sale: HEI guarantees that a full years worth of spare parts will remain in our stock at all times, insuring your continued operation. Further, if you experience any down-time during the warranty period, and we cannot solve your problem via phone or technician visit, HEI will mobilize a demo unit, free of charge, to your job location, until such time as we can determine and remedy the cause of your down-time.
