

MASTER TRAINER (MT) OVERVIEW

Summary

A Master Trainer (MT) is an individual qualified by WJTA to qualify Verified Trainers (VTs), approve Field Verification Sites and conduct site and training audits.

Master Trainer Responsibilities

- Conduct VT Train-the-Trainer sessions in accordance with WJTA policy
- Review and approve Field Verification Sites in accordance with WJTA policy
- Audit Field Verification sessions to ensure that instruction is high quality and consistent with WJTA policy
- Report any suspected fraud or ethical violations to the WJTA Training Committee

MT Qualifications

Individuals must hold current Hydroblaster FT and Hydroblaster FV credentials.

MT candidates will be selected by WJTA based on criteria including but not limited to current industry knowledge, industry experience, geographical reach and communications skill. Selection and approval will be the prerogative of the WJTA Board of Directors, who will take into consideration the recommendations of the other MTs and the WJTA Training Committee.

Expiration

WJTA MTs will be reviewed no less than annually and revalidated based on the criteria above. The review and revalidation will be the prerogative of the WJTA Board of Directors, who will take into consideration the recommendations of the other MTs and the WJTA Training Committee.

Cost

There is no cost to individuals who are selected to be Master Trainers.

Application Process

1. Candidates submit the application on page 2 to the WJTA office.
2. WJTA Training Committee reviews application and submits recommendation to the WJTA Board of Directors.
3. WJTA Board of Directors reviews and approves Master Trainer applications at their spring and fall meetings. The Board of Directors may meet outside of their scheduled meetings as needed to review additional Master Trainer applications.
